

How to Cancel Spectrum Cable but Keep Internet (2025 Guide)

Want to cut the cord but still keep your Spectrum internet? Good news — **you can cancel Spectrum's cable TV service while keeping your internet plan**. And in many cases, it can save you a lot of money each month.

Can You Cancel Spectrum Cable but Keep Internet?

Yes, absolutely. Spectrum allows customers to remove cable TV services and continue using their internet service as a standalone plan. You don't need to cancel your entire account or switch providers.

In fact, many people are doing this as streaming becomes more popular — and more affordable.

How to Cancel Spectrum Cable (Step-by-Step)

1. Call Spectrum at **1-833-267-6094** — their dedicated customer service line.
2. When prompted, say "Cancel service" or press the option to speak with a representative.
3. Tell the rep you want to cancel TV service but **keep your internet active**.
4. They'll likely offer you discounts — politely decline if you're set on canceling.
5. Ask if you need to return any cable boxes or remotes.

Tip: Always ask for confirmation that your internet plan stays the same, and verify the new monthly rate before you hang up.

How to Cancel Spectrum Internet Service

If you're looking to instead cancel your Spectrum Internet service, follow these steps to ensure a smooth process:

1. **Contact Spectrum Customer Service**
Call Spectrum at 833-267-6094 to initiate the cancellation. Be prepared for potential wait times and have your account information ready.
2. **In-Person Cancellation**
Alternatively, visit a local Spectrum store to cancel your service. Bringing any rented equipment with you can expedite the process.
3. **Prepare for Retention Efforts**
Spectrum representatives may offer promotions or discounts to retain your business. If you're certain about canceling, remain firm in your decision.
4. **Return Equipment Promptly**
Ensure all rented equipment, such as modems and routers, are returned to avoid

additional charges. You can return equipment in person or via mail.

5. **Obtain Confirmation**

After cancellation, request a confirmation number or email for your records. This helps resolve any potential disputes about the cancellation.

6. **Monitor Your Final Bill**

Review your final statement to ensure no unexpected charges appear. Spectrum bills are not prorated, so cancel before the next billing cycle to avoid extra fees.

By following these steps, you can effectively cancel your Spectrum Internet service with minimal hassle. ?

What to Expect After Canceling Spectrum Cable

After canceling cable, your bill will drop — but you'll likely be switched to the current standalone internet pricing. It's not uncommon to pay:

- **\$50–\$70/month** for 300 Mbps
- **\$80–\$100/month** for Gigabit plans

If you're also renting a modem/router, that may still be an extra \$5–\$10/month. You can save even more by using your own equipment.

What to Use Instead of Spectrum Cable?

Once you cancel cable, you'll need a way to watch live TV and local channels. Most people use streaming apps, but many of them are expensive — sometimes just as much as cable.

That's where **CUE Broadcast** comes in.

Why CUE Broadcast Is a Smart Replacement

- Stream live TV, local channels, and sports — all in one app
- No contracts, no hidden fees
- Works on Roku, Fire TV, Apple TV, and more
- Much cheaper than Hulu Live or YouTube TV

CUE Broadcast gives you everything you need to cut the cord — and still watch the shows, channels, and games you love.

Final Thoughts About Canceling Spectrum and Keeping Internet Service

You don't have to overpay for cable TV just to keep your internet. By canceling Spectrum's TV service and switching to a streaming option like **CUE Broadcast**, you can save money and still watch what you want — when you want.

I've also been hearing that many cable companies are on the brink of going under. Some of them are even going to be using CUE as their back-end and then re-sell it as their own. When that happens, you won't be able to use CUE's "Refer 3 and It's Free" deal where you can **get cable TV for free**, essentially — just by getting 3 other people to sign up. Get in with CUE now and I don't think you'll regret it.
