

# Let Me Show You How I Built a Website That Sold for \$12,850

## Have You Ever Wanted to Make Money Online?

Everyone Knows That to Make Money Online, You'll Need a Website...

**But How Do You Set Up One of These Websites the Right Way?**

**You Need a Coach and Some EASY Step-by-Step Instructions**

**That Right HERE!**

Hi There!

My name is Tony and I've been doing internet marketing since 2005. Like most people, I struggled at first. I tried method after method. I read books. Some things kind of worked but most of them were just plain trash.

I then got some help. I got into a group where I got step-by-step training on what to (I really like step-by-step training) and it was a giant success!

That website brought in a lot of money, every month – on autopilot. I just spent a couple hours a week working on it and some weeks, I skipped the work, doing nothing. That website still made me money and then I sold it.

**I sold that website on Flippa for \$12,850!**

I've made **hundreds of thousands of dollars online** and now it's time you learn how to do it, too!

I'm excited to offer training to people who want to learn how to make money online because I was once there, too. I started on my own at first and later found out that **having a coach and having some step-by-step instructions from people who knew what they were doing made it a lot easier and a lot FASTER!**

My friends we're bugging me about telling them how to do it themselves and I explained it to them but I figured giving them some steps to follow would work the best, so **I created this easy course:**

You don't have to do it in 7 days – you can do it in one day if you want. I broke it into 7 days so people could put some good thought into each step and I wanted to make it for people who were busy and could only take maybe an hour a night (or less) to work on this kind of thing.

This book is normally \$9.99 but **you can have this course for FREE** if you just do a share for me. Choose your social platform below and it's yours – no strings attached!
