What Is ABC?Fitness (ABC Financial)?

ABC?Financial—now officially **ABC?Fitness Solutions, LLC**—is a third-party software and billing company serving fitness businesses, including national gym chains like, and including, **Planet Fitness** (from what we can tell). They provide tools for member management, recurring payments, customer engagement, and reporting—but they do *not* own or operate any gyms themselves.

Planet Fitness began using ABC's billing and club?management systems (including their "IGNITE" platform) starting around 2014. In March 2023, they extended that partnership through 2027 to continue leveraging ABC's IGNITE modules for billing, operations, and analytics across their US and Canada locations.

To put it simply:

- **Role:** Technology and billing provider for fitness clubs
- **Does not own gyms:** **ABC?Fitness** does not operate Planet Fitness or any other fitness club
- **Client:** Planet Fitness and thousands of other gyms use ABC's platform
